EDUCATION

SILICON INSTITUTE OF TECHNOLOGY
BTech in Computer Science| Dec 2022 - present | CGPA – 8.07/10

DAV PUBLIC SCHOOL, BOKARO
Senior Secondary April 2020 | Percentage - 82

ST PAULS SCHOOL, BHAGALPUR
Matriculation May 2018 | Percentage – 81.00

SKILLS and Competencies Document

PROGRAMMING LANGUAGES
C++ • Python • JavaScript • Java • Solidity

WEB DEVELOPMENT
MongoDB • ExpressJS • ReactJS • NodeJs • APIs • CSS • Moongoose • ThreeJS • RestfulAPIs

BLOCKCHAIN
Ethereum • Hardhat • Solidity • EtherJS • Remix

TOOLS
Git • GitHub

INTERPERSONAL
Leadership • Event Management • Teamwork • Critical thinking • Timely Communication

COURSEWORK

Operating Systems
Object-oriented programming
Data Structures And Algorithms Database Management System

PROJECTS

DECTION
NextJs , Solidity, Ether JS (Group Project)
- Won 1st position in Hatch from Scratch Hackathon among 100+ teams.
- 100% decentralized application that stores all data on the blockchain and uses Aadhar for authentication. Developed a smart contract enabling users to participate in elections, cast votes, and obtain results with transparency.
- Implemented JWT authentication for seamless user login and to ensure restricted access to protected routes.

TRAVELTOUR
MongoDB, ExpressJS, ReactJS, NodeJS, RESTful APIs
- Travel Tour empowers users to explore, book destinations, and share their reviews on these locations.
- Incorporates a user authentication system to guarantee secure access and tailor experiences for travelers.
- Utilizes RESTful API routes for performing diverse CRUD operations and has a responsive design that accommodates all devices.

ACHIEVEMENTS

- Secured top 50 All India Rank (AIR) in Indian Mathematics Olympiad, 2020 • Participated in Hack From Scratch Hackathon, 2023 among 100+ teams
- 1st and 2nd Rank in Capture the Flag, Pantheon 2023 and 2022.
- Solved 250+ DSA questions on all platforms
